

# ATEX II 3G Electric Blanket for Large Tanks

**RUBISOLIS**

Mikroklimate sprendimai

**RIMATEK**

This product is recommended to optimize the LPG supply in domestic or industrial environments.

The external temperature or the strong supply of gas can cause the tank to freeze, resulting in difficulty in gas leakage

Application on tanks requires the use of several modules (3.000 l tank-3 heating bands / 4.000 l - 4 heating bands / 5.000 l -5 heating bands).

## TECHNICAL DATA (1 BAND):

- Temperature management: 60°C not adjustable double thermostat (temperature reached by the electric blanket).
- 75°C Thermal fuse
- Power supply : 230Vac
- Aramid fabric inside and outside.
- Internal thermal insulation of 1 cm in not flammable material
- Metallic layer connected to ground
- Certification : II 3G IIB T4

Code	Dimension	Power
TI_SERB_GAS	180x45 cm (single band)	440W (single band)

Tank capacity	Number of modules
3000 L	3
4000 L	4
5000 L	5
